Report of Planned Purchases of Health and Human Services

October 2000

Chapter 103F, HRS

The following is a listing of various health and human services which state agencies plan to contract with private providers from November 2000 to December 2001. This report does not obligate state agencies to solicit these services or prevent state agencies from soliciting additional services since they may experience changes to planned expenditures after this report is public. The intent of this report is to provide interested parties with advance notice of possible funding opportunities so they may plan and participate accordingly when competing for state contracts.
